LifeSafer®
Portable Alcohol Monitoring

Accurate - Reliable - Affordable

LifeSafer is proud to offer a low monthly fee on the most reliable, fully-featured device available. We ensure cost is never a barrier to participation in court-ordered programs. When it comes to portable alcohol monitoring, you and your clients deserve the accuracy, reliability, and affordability that help to make life safer.

"The LifeSafer Portable Monitoring Unit should be considered the most effective alcohol testing technology for courts supervising probationers with conditions that forbid the use of alcohol."

JUSTICE SPEAKERS INSTITUTE, FEBRUARY, 2020

Introducing PAM V3

At LifeSafer, innovation is at our core, driving us to continually enhance our technology. We've developed PAM V3 with various improvements for a smoother, more efficient experience.

More Reliable Power & Charging

- **Faster Charging:** Now charges in just 3 hours.
- **Stronger Connection:** Upgraded to a standard Type-C cable for durability and ease of use.
- **Battery Indicator:** Battery life is now clearly displayed in the top right corner of the device.

Simplified Design

- **All-in-One Unit:** The handset and camera are now integrated into a single case, eliminating connection issues.
- **More Efficient Data Transmission:** Replaced Bluetooth pairing with a direct cell data chip for faster, more reliable communication.

Enhanced Photo Quality

- **Optimized Built-in Camera:** Improved color accuracy and IR LED for clearer low-light photos.
- **No More Flash Disruptions:** The updated design eliminates the bright camera flash.

	Court Admissible	Accuracy	Test Frequency	Speed of Results	Price
LifeSafer PAM	Yes	Meets or exceeds NHTSA standards	Fully customizable	Real-time transmission	$2-$3 per day
Smartphone devices (SSAM)	No	Technology does not ensure sufficient breath volume	Difficult to take consecutive samples in a short time	Depends on agency technology	$1-$4.50 per day

PRODUCT FEATURES
