Date January 21, 2020
Subject LifeSaver User Interface
Device (Handset)

To Whom it may Concern;

This letter is to attest to the fact that the LifeSaver User Interface Device (Handset) Identified as part of the L250 system was tested by Element and found to be in compliance with the National Highway Traffic Safety Administration (NHTSA), Department of Transportation (DOT) Specifications [Docket No. NHTSA-2013-00058]

EMC/EMI tests (Test 14) were performed by another independent Laboratory (TUV SUD) and the device has been indicated as complying with the referenced test Protocol.

Reference Test Report Number ESP019820P Dated November 17, 2015 for the entire Test Report Details.

Element Materials Technology St. Paul is an independent laboratory, accredited by A2LA for the testing of BAIDS per NHTSA and several international standards. Element Materials Technology St. Paul is not affiliated with LifeSaver Interlock Inc. other than as a Business Service Supplier (Element) and Business Customer (LifeSaver Interlock Inc.).

Sincerely,

Mike Olszewski
