affordably, and **easily**.

We are wallet friendly

Our pricing is competitive, upfront, and easy to understand.

We are experts

You won't have to figure out complex laws, rules or paperwork on your own.

We are available any time

You will never be stuck – customer care is available 24/7, 365 days a year.

We are committed to your success

We work with your monitoring agency to ensure your reports are submitted correctly.

STEP 1

Thirty days prior to your restoration eligibility date, PennDOT will mail you a Restoration Requirements Letter. You can also log in the PennDOT website and access your restoration requirements letter. This letter includes an application for the ignition interlock license. You should complete the application for the Ignition Interlock License and send it to PennDOT as quickly as possible.

STEP 2

Call LifeSafer Ignition Interlock **855-527-1597** to schedule your interlock installation. Ask about any special offers.

STEP 3

Bring current registration to the installation. If you're not the registered owner, the owner will need to be at the installation, or you will need a notarized permission slip from the owner saying that it's okay to install the interlock. Bring proof of insurance and the Restoration Requirements letter from PennDOT and Form DL-21SC form (Self-Certification of Vehicle(s) Owned/Operated).

STEP 4

Once the installation is complete and the service provider has filled out the form, fax it to LifeSafer at **855-282-6357** or scan the completed form and email it to LSPA@lifesafers.com. LifeSafer will verify the information against the PennDOT vehicle database. Once we determine that you either don't own any vehicles or that the device has been installed on all applicable vehicles, the information is sent to PennDOT.

STEP 5

If the restoration requirements have been met and the application for the Ignition Interlock License was received, PennDOT will restore your driving privilege and issue your Ignition Interlock License.
