

# TENNESSEE LICENSE RECOVERY AFTER A DUI

restore your **freedom**  
to drive quickly,  
affordably, and **easily**.

## We are wallet friendly

Our pricing is competitive, upfront, and easy to understand.

## We are experts

You won't have to figure out complex laws, rules or paperwork on your own.

## We are available any time

You will never be stuck – customer care is available 24/7, 365 days a year.

## We are committed to your success

We work with your monitoring agency to ensure your reports are submitted correctly.

## STEP 1

Once you are convicted of a DUI offense, request a restricted license/ignition interlock device from the Court. The Judge signs the Order for Restricted License (ORDL).

## STEP 2

Call LifeSafer Ignition Interlock **855-527-1597** to schedule your interlock installation. You may drive on the ORDL for a maximum of 10 days, allowing you time to have an ignition interlock device installed.

## STEP 3

Allow at least 48 hours for LifeSafer to electronically submit the proof of installation and have it post to your Driver Services account before going to the Driver Services Office. Driver Services cannot accept a paper copy of your installation report from you.

## STEP 4

Take the original certified court order and a copy to the Driver Services Center to obtain a restricted license. You will also need an SR-22 certificate (your insurance company can help with this). When you apply, you will be issued a 90-day restricted interim driver license. The application is then sent to the Driver Services Central Office for review and a final determination.

In order for your time with an ignition interlock device to count toward your requirement, you **MUST** have a restricted driver license. Second and subsequent DUI convictions have additional requirements.

The information presented is not legal advice and is subject to change without notice. You should seek appropriate counsel for the most up to date information relating to your own specific situation.
